

**CYSENI conference with a separate TWIN-PEAKS session will take place
on 23-26 May 2023**

The INTERNATIONAL CONFERENCE OF YOUNG SCIENTISTS ON ENERGY AND NATURAL SCIENCES ISSUES (CYSENI) provides an opportunity to researchers to share their new ideas, original research results and practical development experiences. This event's main goal is to discuss **cross-sectoral environmental, social, energy, economic issues, and perspectives** in view of sustainable development.

The conference is jointly hosted by the Lithuanian Energy Institute, Lithuanian research centre for agriculture and forestry, RTO Lithuania and Vytautas Magnus University. It is part of the dissemination activities of a European project [TWIN-PEAKS](#).

The conference program is available: <https://cyseni.com/programme/>.

This partnership allows for an expanded synergy of research areas, which is reflected in the expanded list of topics for this year's conference.
